جامعة: بنها

كلية: التمريض

قسم : التخدير والعناية المركزة - كلية طب بنها

توصيف مقرر دراسي

٢٠١٩/٢٠١٨

١ - بيانات مقرر		
الفرقة: الثانية	اسم المقرر :	الرمز الكودي :
الفصل الدراسي الثاني	طب حالات حرجة والطوارئ Critical & emergency medicine	MED ٢٢١
	عدد الساعات الدراسية :	التخصص:
	(٥) ساعة عملي × ١٥ أسبوع	بكالوريوس في علوم التمريض
	(٢) ساعات نظري × ١٥ أسبوع -	

٢ - هدف المقرر:
The course aims to provide students with advanced knowledge and skills which enable them to provide proper performance for patients in intensive care and emergency departments.
٣ - المستهدف من تدريس المقرر
أ- المعلومات و المفاهيم:
<i>By the end of the course, the student should be able to:</i>
a.١- Identify key terms related to critical and emergency medicine.
A.٢- List causes of cardio- respiratory arrest.
a.٣- Describe sign and symptoms of airway obstruction.
a.٤- Identify signs and symptoms of fluid deficiency.

- a.٥- Explain medical management of shock.
- a.٦-. Mention indications of mechanical ventilation.
- a.٧- List contents of crash cart.
- a.٨- Enumerate indications of parental nutrition.
- a.٩- Discuss complications of blood transfusion.

ب- المهارات الذهنية:

By the end of the course, the student should be able to- :

- b.١- Evaluate hemodynamic status of the critically ill patients.
- b.٢- Differentiate between cardio-respiratory arrest and coma.
- b.٣- Plan the nursing&medical management for patients with respiratory alkalosis and acidosis.
- b.٤- Distinguish between types of shock.
- b.٥- Compare between the modes of ventilator.

ج- المهارات المهنية:

By the end of the course, the student should be able to :

- c.١-Apply nursing intervention for critically ill patients.
- c.٢- Demonstrate advanced life support.
- c.٣-Demonstrate management for shocked patients.
- c.٤-Apply DC shock.
- c.٥-Apply management for mechanically ventilated patient.
- c.٦-Calculate drops of IV solution through IV access.
- c.٧- Demonstrate preparation for blood transfusion procedure.

د- المهارات العامة :

By the end of the course, the student should be able to :

- d.١ - Communicate with patients & relatives in a compassionate ethicalmanner
- d.٢ -Participate productively in a team.
- d.٣-Manage effectively time, resources and sets priorities.
- d.٤-Apply communication skills in inter- professional, social and therapeutic context.

- d.٥ - Use information technology.
- d.٦ - Apply problem solving skills.
- d.٧ - Demonstrate patient's rights.

٤- محتوى المقرر :

- ١- Critically ill patient
- ٢-Cardio-respiratory arrest
- ٣- Airway management
- ٤-Fluid management
- ٥- Shock
- ٦- Mechanical ventilation
- ٧-Crash cart content
- ٨-Total parenteral nutrition
- ٩-Blood transfusion

٥- أساليب التعليم و التعلم :

- Interactive Lectures
- Simulation
- Group discussion
- Demonstration& Re -demonstration.

٦- أساليب التعليم و التعلم للطلاب ذوي القدرات المحدودة:

لا يوجد لدينا طلاب ذوي قدرات محدودة ولكن هناك أساليب للتعليم والتعلم للطلاب المتعثرين دراسيا:

Activate academic supervision to solve students' problem.

The teaching academic members support the weakened students through
library hours

Revision lectures and scientific lessons to all students especiallyweakenedstudents

Make routine exams to early discover the weakened students.

Students' leadership.

أساليب التعليم و التعلم للطلاب المتفوقين

Motivate the students to participate in available activities as sports, arts, cultures and science

Motivate students to participate in activities directing to community services and environment development

Training students for effective evaluation to teaching learning process through questionnaire.

٧- تقويم الطلاب

توصيف مقرر دراسي

2019/2018

1- بيانات مقرر		
الفرقة: الثانية الفصل الدراسي الثاني	اسم المقرر: تمريض حالات حرجة Critical care nursing	الرمز الكودي : NUR 206
عدد الساعات الدراسية: نظري (4) ساعة × 15 أسبوع عملي (20) ساعة × 15 أسبوع		التخصص: بكالوريوس في علوم التمريض

2- هدف المقرر

This course aims to equip students with essential knowledge, skills and attitudes to provide high quality nursing care for life-threatening problems through using nursing process.

3- المستهدف من تدريس المقرر

أ- المعلومات و المفاهيم:

By the end of the course ,the student should be able to:

- a.1-Identify terms related to critical nursing.
- a.2-List clinical manifestations of acid-base disturbances.
- a.3-Enumerate causes of acid-base disturbances.

- a.4- Mention nursing intervention for patient with respiratory failure.
- a.5- Enumerate nursing's problems of mechanical ventilator.
- a.6- Record signs and symptom of heart failure.
- a.7- Discuss causes of arrhythmia.
- a.8 -Mention nursing intervention for patient with burn
- a.9- Discuss nursing intervention for patient with liver transplantation
- a.10-Identify nursing care to prevent complications of central venous catheter.
- a.11- List preventive measures of oxygen therapy complications.
- a.12- List complication of arterial puncture.
- a.13- List risk factors of stroke.
- a.14- Define stroke.

ب- المهارات الذهنية:

By the end of the course, the student should be able to:

- b.1-Synthesizes assessment data to formulate nursing diagnoses for critically ill patient.
- b.2 -Design a plan of care for patient with respiratory failure.
- b.3-Compare between modes of mechanical ventilator.
- b.4 -Formulate a plan of care for patient with cardiac catheter.
- b.5- Differentiate between acidosis and alkalosis.
- b.6- Design a plan for dialysis patient according to priorities of needs.

ج- المهارات المهنية:

By the end of the course, the student should be able to:

- c.1 - Apply nursing care for patient with respiratory failure.
- c.2- Manage nursing problems for patient with fluid and electrolytes imbalance.
- c.3-Apply for nursing intervention for cerebrovascular disorders.
- c.4-Apply nursing intervention to meet the basic needs of patients with bleeding
- c.5-Apply nursing intervention for mechanically ventilated patient.

- c.6- Manage nursing care for ventilated patient with acid base imbalance.
- C.7- Demonstrate safe performance of the nursing skills in a simulated laboratory setting (as suction, arterial puncture).
- c.8- Apply endotracheal tube and chest tubes care effectively.
- c.9- Practice central venous pressure readings accurately.
- c.10- Demonstrate administration of oxygen therapy accurately.
- c.11-Perform tracheostomy suction perfectly.
- c.12- Apply nursing intervention for stroked patient.

د- المهارات العامة:

By the end of the course the student will be able to

- d.1- Work productively in a team.
- d.2-Manage effectively time, resources and sets priorities.
- d.3-Apply communication skills in inter- professional, social and therapeutic context.
- d.4- Use information technology.
- d.5- Use problem solving skills
- d.6-Demonstrate patient's rights and privacy
- d.7- Apply effectively in web sites relevant to clinical cases for certain subject

4- محتوى المقرر

- Introduction to critical care nursing.
- Acid base balance.
- Respiratory failure.
- Mechanical ventilation.
- Heart failure
- Arrhythmia
- Cardiac catheterization
- Shock

- Bleeding
- Stroke
- Dialysis
- Burn
- Organ transplantation
- Central venous pressure
- Endotracheal, tracheotomy care and suction.
- Oxygen therapy.
- Arterial puncture.
- Chest tube.
- ECG
- Advanced CPR &Defibrillator
- Monitor
- Crash cart

5- أساليب التعليم والتعلم

- Interactive lectures.
- Group discussion.
- Clinical training.
- Demonstration & re-demonstration.
- Self-learning activities.
- Case study.
- Role play.
- Simulation.
- Problem solving.

6- أساليب التعليم و التعلم للطلاب ذوي القدرات المحدودة:

لا يوجد لدينا طلاب ذوي قدرات محدودة ولكن هناك أساليب للتعليم والتعلم للطلاب المتعثرين دراسيا:

Activate academic supervision to solve students' problem.

The teaching academic members support the weakened students through
library hours

جامعة: بنها

كلية: التمريض

قسم: أقسام (الرمد- الأنف والأذن- العظام- المسالك) كلية الطب - جامعة بنها

توصيف مقرر دراسي

٢٠١٩/٢٠١٨

١- بيانات مقرر		الرمز الكودي:
الفرقة: الثانية الفصل الدراسي الثاني	اسم المقرر: تخصصات جراحة رمد- أنف وأذن- عظام- مسالك Ophthalmology, ENT, Orthopaedic and Urology.	NUR٢٠٩
عدد الساعات الدراسية: بمعدل (٤) ساعة نظري × ١٥ أسبوع		التخصص: بكالوريوس في علوم تمريض
عملي (-)		

٢- هدف المقرر:

The course aims to provide the students with essential knowledge and attitude to provide proper care for patients with each of these diseases ophthalmologic, E.N.T, musculoskeletal and urological problems.

٣- المستهدف من تدريس المقرر

أ- المعلومات والمفاهيم:

By the end of the course the student should be able to :

- a.١- List anatomy of the eye.
- a.٢- Describe lacrimal system.
- a.٣- Identify visual pathway.
- a.٤ Enumerate diagnostic tests for assessment of the eye.
- a.٥- Mention congenital anomalies of the eye

- a. ٦- Discuss management modalities for patients having diseases of the eye lid.
- a. ٧- List classification of conjunctivitis.
- a. ٨- Define the cataract.
- a. ٩- Mention clinical manifestation of diabetic retinopathy.
- a. ١٠- List causes of retinal detachment.
- a. ١١- Illustrate management modalities of errors of refraction.
- a. ١٢- Enumerate parts of the ear.
- a. ١٣- List causes of epistaxis.
- a. ١٤- Enumerate indications of tonsillectomy.
- a. ١٥- Mention causes of hemorrhage after tonsillectomy
- a. ١٦- Discuss complications of tracheostomy
- a. ١٧- Enumerate management of patients having stridor and foreign body in ENT.
- a. ١٨- Identify diagnostic tests for assessment of musculoskeletal system.
- a. ١٩- Enumerate management of patients having musculoskeletal trauma.
- a. ٢٠- List types of fractures.
- a. ٢١- Define casts and splints.
- a. ٢٢- Enumerate indications of cast.
- a. ٢٣- Mention management required for patient with traction.
- a. ٢٤- List diagnostic tests for assessment of urological system.
- a. ٢٥- Describe causes of urinary problems.
- a. ٢٦- Identify types of stones.
- a. ٢٧- Mention medical management of poly nephritis.
- a. ٢٨- Identify congenital abnormalities of urinary system.
- a. ٢٩- Enumerate causes of hematuria.
- a. ٣٠- List causes of bladder cancer.
- a. ٣١- Mention types of incontinence of urine.
- a. ٣٢- Discuss peri-operative care of urinary surgery.

ب- المهارات الذهنية:

By the end of the course, the student should be able to :

- b.١- Explain poles, axes, dimensions of the eyeball.
- b.٢- Differentiate between different types of lid inflammations.
- b.٣- Distinguish between method of measurement of the visual acuity.
- b.٤- Assess clinical picture of corneal ulcer.
- b.٥- Differentiate between cataract and glaucoma
- b.٦-Formulate plan for management for patients with diabetic retinopathy.
- b.٧-Assess clinical picture of epistaxis
- b.٨- Plan management for patient with tonsillectomy.
- b.٩-Distinguish between causes of stridor
- b.١٠-Contrast technique of washing the ear
- b.١١- Assess poly trauma patient
- b.١٢- Compare between simple and complicated fractures.
- b.١٣- Explain formation of the stones.
- b.١٤- Formulate plan for management for patients with poly nephritis.
- b.١٥-Assess urine for hematuria.

ج- المهارات المهنية:

By the end of the course, the student should be able to :

د- المهارات العامة:

- d.١- Use effectively web sites relevant to clinical cases for certain subject.
- d.٢- Apply patient's rights and privacy.
- d.٣- Use problem solving skills.

توصيف مقرر دراسي

2019-2018

1- بيانات مقرر		
الفرقة: الثانية	اسم المقرر: تخصصات الباطنة (جلدية – عصبية - صدرية- قلب) Dermatology, Neurology, Chest, Cardiology	الرمز الكودي: NUR 203
الفصل الدراسي الأول	عدد الساعات الدراسية: 4ساعة نظري × 15 اسبوع عملي (—)	التخصص: بكالوريوس في علوم التمريض

2- هدف المقرر:

The course aims to provide the student with essential knowledge and attitude to be highly qualified and to provide proper care for patients with the diseases as dermatological, neurological, chest and heart diseases.

أ-المعلومات والمفاهيم:

By the end of the course, the student should be able to :

- a.1- Recognize skin diseases caused by bacteria.
- a.2- List skin diseases caused by mycobacterium.
- a.3- Mention skin diseases caused by fungi.
- a.4- State skin diseases caused by viruses.
- a.5- Enumerate skin diseases caused parasites.
- a.6- Label types of autoimmune diseases.
- a.7- Identify sexually transmitted diseases.
- a.8- List nervous system diseases.
- a.9- Mention etiology of paraplegia.
- a. 10- Describe peripheral neuropathy.
- a.11- Discuss movement diseases
- a.12-Enumerate clinical manifestations of epilepsy.
- a.13- Identify signs and symptoms of pulmonary tuberculosis.
- a.14- Define lung abscess
- a.15- Illustrate clinical manifestations of chronic bronchitis & emphysema.
- a.16- List causes of pneumonia.
- a.17- Mention diagnostics tests of diseases of pleura.
- a.18-Recognize causes, manifestation &clinical picture of bronchial asthma.

- a.19-Memorize clinical manifestations of coronary artery disease.
- a.20- Enumerate types of heart failure
- a.21- State etiology of systemic hypertension.
- a.22- Define rheumatic fever
- a.23- State causes of sudden cardiac death

ب- المهارات الذهنية :

By the end of the course, the student should be able to :

- b.1- Differentiate between primary and secondary skin lesions.
- b.2- Explain clinical picture of dermatitis
- b.3 Summarize signs and symptoms of urticarial
- b.4 Discuss etiology of acne vulgaris
- b.5 - Classify motor diseases.
- b.6 -Compare between hemiplegia and paraplegia.
- b.7- Explain causes of cerebella lesion and ataxia
- b.8- Formulate management for patients with coma.
- b.9- Diagram parts of respiratory system
- b.10- Assess respiratory problems perfectly
- b.11- Describe clinical features of pneumonia.
- b.12- Recognize systemic circulation
- b.13 Summarize management of pulmonary embolism
- b.14- Discuss risk factors of infective endocarditis

b.15- Distinguish between types of arrhythmia

<p>- محاضرة تفاعلي</p> <p>- حلقات مناقشة</p> <p>- التعلم الذاتي</p> <p>- العصف الذهني</p>
<p>6- أساليب التعليم والتعلم للطلاب ذوي القدرات المحدودة:</p>

لا يوجد لدينا طلاب ذوي قدرات محدودة ولكن هناك أساليب التعليم والتعلم للطلاب المتعثرين دراسياً:

تحديد الطلاب المتعثرين

تفعيل عمل الإشراف الأكاديمي لحل مشاكل الطلاب

دعم أعضاء هيئة التدريس للطلاب المتعثرين من خلال الساعات المكتبية المتاحة للطلاب

محاضرات مراجعة نظريه وعملية لدعم كافة الطلاب خاصة المتعثرين.

طرح الامتحانات الدورية للطلاب للاكتشاف المبكر للتعثر وسهولة معالجته
الريادة الطلابية.

أساليب التعليم والتعلم للطلاب المتفوقين

تحفيز الطلاب على المشاركة بالأنشطة المتاحة من رياضية - فنية - ثقافية وعلمية

تحفيز الطلاب على المشاركة بالأنشطة الموجه لخدمة المجتمع وتنمية البيئة من المشاركة بالقوافل الطبية

تدريب الطلاب على التقويم البناء للعملية التعليمية من خلال استقصاءات واستطلاع الرأي الموجه للطلاب عن كافة

جوانب العملية التعليمية

تكليف الطلاب بمهام فردية وجماعية لدعم مهارات العمل الجماعي وتحليل للنتائج والتفكير الابتكاري

7- تقويم الطلاب

أ- الأساليب المستخدمة	امتحان شفوي نهائي امتحان تحريري نهائي
ب- التوقيت	امتحان شفوي نهائي في نهاية الاسبوع 15 امتحان تحريري نهائي في نهاية الاسبوع 15

توصيف مقرر دراسي

٢٠١٩/٢٠١٨

١- بيانات مقرر		
الفرقة: الثانية	اسم المقرر : تمريض باطنى وجراحي	الرمز الكودى :
الفصل الدراسي الأول	Medical surgical nursing	NUR ٢٠١
عدد الساعات الدراسية:		التخصص :
نظري(٤) ساعة × ١٥ أسبوع	عملي (٢٠) ساعة × ١٥ أسبوع	بكالوريوس في علوم التمريض

٢- هدف المقرر:
<p>This course aims to equip students with essential knowledge, skills and attitudes to provide high quality nursing care for patients with medical surgical problems through using nursing process.</p>
٣- المستهدف من تدريس المقرر :
<p>أ- المعلومات و المفاهيم:</p> <p>By the end of the course the student should be able to:</p> <p>a.١-Define critical thinking</p> <p>a.٢-List components of critical thinking</p> <p>a.٣-Identify distribution of body fluid</p> <p>a.٤- Describe regulation of fluids and electrolytes</p>

- a. ٥- Discuss the preoperative nursing care.
- a. ٦- List post- operative complication.
- a. ٧- Mention the pain management strategies
 - a. ٨-Enumerate the nursing diagnoses for the patient with pain
- a. ٩- List common clinical manifestation of cancer
- a. ١٠ –Discuss nursing management of oncology patient.
 - a. ١١-Enumerate diagnostic tests for respiratory system.
 - a. ١٢- Identify nursing management of chronic obstructive pulmonary disease.
 - a. ١٣- Describe clinical manifestations of anemia
 - a. ١٤-List clinical manifestation of Leukemia
 - a. ١٥-Explain patient self care for leukemia.
 - a. ١٦–Enumerate nursing intervention for patient with liver cirrhosis.
 - a. ١٧-Identify different types of hypertension
 - a. ١٨-Describe preventive measures of hypertension.
 - a. ١٩- Mention the prevention and management of venous thrombo embolism
 - a. ٢٠-Explain nursing priorities for patient with congestive heart failure
 - a. ٢١-Enumerate types of hepatitis
 - a. ٢٢-List principles of treatment of cholecystitis
 - a. ٢٣ - Describe role of nurse for patient with cholecystitis.
 - a. ٢٤-Identify basic principles for treatment of diabetic patient.
 - a. ٢٥- List clinical manifestation of hyperthyroidism
 - a. ٢٦-Enumerate laboratory test to diagnosis of hyperthyroidism
 - a. ٢٧-Define the mean of hypothyroidism and myxedema

ب- المهارات الذهنية:

By the end of the course the student should be able to:

- b. ١-Differentiate between common fluid and electrolyte disturbances
- b. ٢-Formulate nursing care plan for patients with acid – base imbalances.
- b. ٣ - Discriminate between acute & chronic pain

- b.٤-Formulate nursing care plan for patient in peri-operative.
- b.٥-Differentiate between benign and malignant tumor
- b.٦- Plan care of patient with lung cancer
- b.٧- Design a plan of care for patient with COPD
- b.٨-Formulate nursing care of patients with upper respiratory tract disorders
- b.٩-Design plan care of patient with hypertension
- b.١٠-Analyze the findings of diagnostic test to detect heart failure
- b.١١-Compare the between various diseases of the arteries
- b.١٢-Defferntiate between nursing diagnosis for patient with hematological disorders
- b.١٣- Discriminate between types of hemophilia
- b. ١٤- Plan care of patient with liver cirrhosis.
- b.١٥- Compare between different types of diabetic coma.
- b.١٦- Plan care of patient with hypothyroidism

ج- المهارات المهنية:

By the end of the course, the student should be able to:

- c.١-Apply critical thinking in nursing practice
- c.٢-Use nursing care plan for patients with fluid and electrolyte disturbances
- c.٣-Plan nursing diagnosis for postoperative patient
- c. ٤- Manage patients with lung cancer using the nursing process as a framework.
- C.٥- Use appropriate non pharmacological method to relieve pain.
- c.٦-Perform different nursing strategies to manage patient with hypertension.
- c.٧- Apply nursing process for care of patient with rheumatic fever
- c.٨ - Plan nursing process for care of patient with congestive heart failure
- c.٩- Use appropriate parameters for assessment of peripheral circulation.
- c.١٠-Apply the nursing process as a framework of care for patients with varicose veins.
- c.١١- Plan nursing intervention for patient with anemia
- c.١٢- Use nursing process for patient with hemophilia
- c.١٣- Demonstrate enema administration for patient with liver cirrhosis

c.١٤- Perform give insulin infusion pump for patient with diabetes.

c.١٥-Apply nursing care for patient with cholecystitis.

c.١٦- Demonstrate care of diabetic foot for diabetic patient.

د- المهارات العامة :

By the end of the course, the student should be able to :

d.١- Participate productively in a team.

d.٢-Manages effectively time, resources and sets priorities.

d.٣- Applies communication skills in inter- professional, social and therapeutic context.

d.٤- Uses information technology.

d.٥- Problem solving skills

d.٦- Cooperate patient's rights and privacy

٤- محتوى المقرر :

Chapter I: basic concepts in nursing:

١- Critical thinking in nursing process

٢- Fluid and electrolytes balance& imbalance

٣- Pre and post-operative care

٤- Pain assessment & management

٥- Cancer

Chapter II: Respiratory system:

- Assessment of respiratory function

- Nursing management of some respiratory disorders as:

-COPD

Lung cancer

Chapter III: Cardiovascular& circulatory system

- Assessment of cardiovascular function

- Nursing management of some cardiovascular disorders as:

- Heart failure

-Rheumatic fever

-Hypertension

Chapter IV: vascular system

- Assessment and management of patient with vascular disorders & problems of peripheral circulation

- Nursing management of some vascular disorders as

-Varicose veins

D.V.T

Chapter V:Hematologic system:

-Assessment and management of patient with hematologic disorders

- Nursing management of some hematologic disorders as:

- Anemia

-Leukemia

-Hemophilia

Chapter VII: Metabolic& endocrine system:

-Assessment and management of patient with some hepatic disorders as:

-viral hepatitis

- Liver cirrhosis

Chapter VIII: Biliary system:

-Assessment and management of patient with some biliary disorders as:

-Cholecystitis

-Assessment and management of patient with D.M

-Assessment and management of patient with hypo and hyperthyroidisms

٥ - أساليب التعليم و التعلم:

-Interactive lectures

-Demonstration and re demonstration

- Brain storming
- Case study
- Group discussion
- Role play

٦-أساليب التعليم والتعلم للطلاب ذوي القدرات المحدودة

لا يوجد لدينا طلاب ذوي قدرات محدودة ولكن هناك أساليب للتعليم والتعلم للطلاب المتعثرين دراسيا:

Activate academic supervision to solve students' problem.

The teaching academic members support the weakened students through library hours

Revision lectures and scientific lessons to all students especially weakened students

Make routine exams to early discover the weakened students.

Students' leadership.

أساليب التعليم و التعلم للطلاب المتفوقين

Motivate the students to participate in available activities as sports,arts,cultures and science

Motivate students to participate in activities directing to community services and environment development

Training students for effective evaluation to teaching learning process through questionnaire.

عدد الساعات الدراسية : (١) ساعة نظري × ١٥ اسبوع (٢) ساعة عملي × ١٥ اسبوع		التخصص : بكالوريوس في علوم التمريض

٢- هدف المقرر:
The course aims to provide the students with essential knowledge and skills of using computer's programs and internet for application in nursing practice, education, and research in order to increasing ability to use information technology in nursing field.
٣- المستهدف من تدريس المقرر :
أ- المعلومات و المفاهيم: <i>By the end of the course the student should be able to:</i> a.١- Identify the concept of spread sheet application . a.٢ -List the basic elements of Ms. Excel. a.٣-Mention steps of printing the sheets. a.٤- List components of computer network.

a.٥- Enumerate uses of the internet.

a.٦ -Identify network topologies.

ب- المهارات الذهنية :

By the end of the course the student should be able to :

b.١ - Design equation to the spread sheets.

b.٢- Differentiate between types of graphs.

b.٣- Create MS Excel sheet.

ج- المهارات المهنية:

By the end of the course the student should be able to:

c.١- Demonstrate effectively web sites relevant to clinical cases for certain subject.

c.٢- Construct different excel graphs.

c.٣-Utilize wireless networks.

c.٤- Apply printing the sheets.

د- المهارات العامة :

By the end of the course, the students should be able to

d.١- Work effectively with team.

d.٢- Manage effectively time, resources and sets priorities.

d.٣- Participate in ongoing educational activities related to professional issues.

d.٤- Use information technology.

d.٥- Apply problem solving skills.

٤- محتوى المقرر :

-Introduction to spread sheets.

-Working with MS Excel.

-Adding equation and graphs.

-Managing and formatting the sheets.

-Services of the internet.

-Printing the sheets.

-Component of computer network.

-Network topologies.

-Internet and token ring protocols.

-Wireless networks.

٥- أساليب التعليم و التعلم :

-Interactive lectures.

-Demonstration & Re-demonstration in computer lab.

٢- هدف المقرر

This course aims to provide the student with knowledge, skills and attitudes necessary to be familiar with the practice of drug therapy as well as understand the safe use of drugs as regards adverse effects, contraindications and drug interactions.

٣- المستهدف من تدريس المقرر

أ- المعلومات و المفاهيم:

By the end of the course the student should be able to:

- a.١- Identify basic concepts & principles of pharmacology.
- a.٢- Describe the pharmacokinetic, and pharmaco therapeutic properties of drugs.
- a.٣ - Discuss the mode of action of the drugs.
- a.٤- List different routes of administration of drugs

- a.٥-Describe situations in which routine clinical pharmacokinetic monitoring would be advantageous.
- a.٦ Identify factors that cause inter-patient variability in drug disposition and drug response.
- a.٧- Mention the signs and symptoms of toxicity of drugs.
- a.٨- List drugs affecting autonomic nervous system.
- a.٩-Enumerate drugs affecting the cardiovascular system.
- a.١٠-Mention types of angina
- a.١١-Describe drugs affecting the alimentary tract.
- a.١٢ - List contraindication of mannitol
- a.١٣- Explain the mode of action for diuretics
- a.١٤- Identify classification of NSAIDs
- a.٥- List drugs acting on central nervous system.
- a.١٦- Identify antibacterial drugs.
- a.١٧-Enumerate the drugs used in pregnancy and the extreme of ages.
- a.١٨-Discuss sedative hypnotics
- a.١٩-define endocrine glandes

ب- المهارات الذهنية

By the end of the course, the student should be able to:

- b.١- Compare between different routes of administration of drugs
- b.٢-Differentiate between pharmacokinetics and pharmacodynamics

- b.٣-Distinguish adverse drug reactions (ADRs) and adverse drug events.
- b.٤-Differentiate between different types of drugs that affecting on autonomic nervous system
- b.٥- Distinguish between common drugs utilized for diagnostic & therapeutic purposes.
- b.٦-Formulate management actions for drug toxicity.
- b.٧- Compare between sedatives hypnotics and narcotic analgesic.
- b.٨ Classify the drugs that used for treatment of bronchial asthma.

ج- المهارات المهنية :

By the end of the course the student should be able to:

- c.١- Demonstrate parenteral drug administration.
- c.٢- Practice topical methods for drug administration.
- c.٣-Apply five rights of administrating medication
- c.٤-Plan pharmacological substances interaction.
- c.٥Apply management for patient with angina
- c.٦- Interpret mechanism of osmotic diuretics

د- المهارات العامة

By the end of the course, the student should be able to:

- d.١- Use communication skills to patients & relatives in a compassionate ethical manner
- d.٢- Cooperate effectively with other health team .
- d.٣- Demonstrate effectively research in web sites relevant to clinical cases for certain subjects.
- d.٤- Use problem solving skills.

-General pharmacology:

- Principles of drug action
- Mechanism of drug action
- Routes of administration of drugs
- Pharmacokinetics
- Adverse reactions to drugs
- Drug toxicity
- Drug interactions

-Drugs affecting the autonomic nervous system

-Drug acting on the cardiovascular system

-Drugs affecting the alimentary tract

-Pharmacology of the kidney (diuretics)

-Drug treatment of bronchial asthma

-Drugs acting on the central nervous system :-

- Sedative hypnotics
- Narcotic analgesics
- Anti- inflammatory drugs

-Endocrine system

-Antibacterial drugs

-Drugs in pregnancy and at the extremes of age.

- Interactive lectures
- Group discussion
- Demonstration& Re demonstration
